## 29<sup>th</sup> Annual Congress & 22<sup>nd</sup> French Symposium in Anesthesia, Critical Care & Pain Management

***Emerging From Crisis: Leaning On Our Roots***

**OCTOBER 15-16, 2022** | Citea Hotel, Achrafieh, Beirut | Hybrid

Welcome to the 29<sup>th</sup> Annual Congress & 22<sup>nd</sup> French Symposium in Anesthesia, Critical Care & Pain Management!

The Lebanese Society of Anesthesia's annual meeting is proud to be back after a two-year hiatus due to ongoing political, economic, and global hardships. However, as the Phoenix that rises from the ashes, we are determined to continue our academic mission of excellence and our quest for professional development.

Our meeting's theme is "Emerging from Crisis: Leaning on our Roots". We have leaned on our Lebanese roots to emerge from this crisis and invited eminent Lebanese speakers practicing all over the world, with the aim of consolidating the Lebanese community of anesthesiologists as one. This meeting is a great chance not only to share the latest knowledge on important aspects of anesthesia but also to strongly connect with our diaspora. We will also be celebrating World Anesthesia Day, commemorating the first successful demonstration of diethyl ether anesthesia in 1846, one of the most significant events in the history of medicine.

We thank the unwavering support of the World Federation of Societies of Anesthesiologists (WFSA), the Pan Arab Federation of Societies of Anesthesia, Intensive Care and Pain Management (PAFSA), the International Lebanese Medical Association (ILMA), and the French Society of Anesthesia & Intensive Care Medicine (SFAR).

The meeting held under the patronage of the Lebanese Order of Physicians will take place over a day and a half (October 15-16) and will be presented in a hybrid format.

We look forward to your participation.

On behalf of the LSA board and the scientific committee,

**Vanda Abi Raad, MD, MHPE, EMBA**

LSA President
